Dear Brothers:

We are in receipt of your letter of January 1, 2000, and appreciate your additional comments regarding the matter of [REDACTED]. As we noted in our letter of December 23, 1999, [REDACTED] has established a long history of violence. Therefore, his being deleted as a ministerial servant now is not exclusively for the reason of his using "excessive force" during the time of his recent employment. Rather, it is his history of violence together with what his superiors viewed as excessive force. Even the sister who you interviewed described his conduct as "borderline," thus indicating that his behavior was beyond that which most Christians would view as exemplary.

With this in mind, he should be informed of the decision to delete him as a ministerial servant and the announcement should be made at the next Service Meeting. Thank you for giving this matter your attention. We send our warm Christian love.

Your brothers,
