Dear Brothers:

We received your letter dated January 19, 2005, regarding matters involving Brother [REDACTED]. Before further consideration is given to this case, we would like to receive some additional clarification regarding the testimony of Sister [REDACTED].

Sister [REDACTED] states that she was around four years old when she was abused by [REDACTED]. Does she have clear memory of what took place and is she sure that it was actually [REDACTED] that was present at [REDACTED] home at the time of the abuse? Were they all in the congregation at the same time so that she would know him well? Did [REDACTED] indeed live near the [REDACTED]s at that time? Has [REDACTED] met with elders regarding these charges, and if so, what was his response? What do [REDACTED] and [REDACTED] say regarding Sister [REDACTED]'s allegations? Do you view Sister [REDACTED]'s testimony against Brother [REDACTED] as credible?

Receiving your comments regarding what is stated above will be very helpful to us in giving further consideration to this matter. When responding, please refer to this letter by the date and desk symbols given above. We take this occasion to send our warm Christian love and best wishes.

Your brothers,
